In Memoriam

Dear Colleagues

We regret to announce the sad news that Professor Komei Nakayama (Japan), the founder of the ISDE passed away on the 20th of June 2005, at the age of 94.

Sorrowfully, the ISDE has lost its founder and one of its finest and most generous members.

Professor Nakayama founded the ISDE in 1979 and was world-renowned for his extensive contributions to surgery. We respectfully pray for the repose of the soul of the late great Professor Nakayama.
