ISDE Booth Nr. 4637

RECORD NUMBER of ABSTRACTS submitted for the 15th World Congress 2016 in Singapore!

It's never been a better time to be an ISDE member!

"ISDE unites esophageal oriented societies from Japan, Europe and China as well as gastroenterologists, radiologists, oncologists, and basic researchers from around the world into one organization to better understand diseases that affect the esophagus. Our annual meeting continues to grow with the most abstracts ever submitted to the 2016 Congress in Singapore.

Join us now and discover a vibrant community focused on the esophagus and **come to Singapore** to hear the latest advances in the field." *Kenneth K. Wang, ISDE President*

NOTE: Editor's Recommendation - Vol 29 / Issue 3

Safety and efficacy of endoscopic spray cryotherapy for Barrett's dysplasia: results of the National Cryospray Registry *S. Ghorbani et. al*

Active treatment rather than simple surveillance in case of high-grade Dysplasia in Barrett epithelium (BE) is recommended by current AGA and BSG guidelines and the possibility of expanding active treatment even in selected patients with low-grade Dysplasia is suggested. Currently, the most common modality of BE ablation is by using ...
